Vision Statement

Spiritual direction - also called spiritual guidance or spiritual companionship - is a relationship in which one person, deeply desiring to grow in the Spirit, meets regularly with another in order to discern God's presence and God's continuing invitation to union in a deep and faithful way. It is an ancient art and ministry now being recovered as an essential element of the spiritual journey.

Purpose

This two-year training program is designed for persons, lay and ordained, from a wide variety of vocations and traditions, who feel called to deepen their capacity for ministry as spiritual directors.

Eligibility

Admission is open to persons:

- Sought out by individuals for assistance with the life of the Spirit
- Willing to reflect on personal experience and to participate in group process
- Open, flexible and intentional about their own spiritual growth
- Grounded in the Christian tradition
- Demonstrate the ability to maintain confidentiality

Learning Philosophy

As adult learners, participants are expected to take primary responsibility for their own learning. Participants are invited to come to clarity about their motivation for applying and to welcome the discovery of new attitudes, concepts and behaviors.

Certificate

A certificate will be awarded to those persons satisfactorily fulfilling all the requirements of the program. We emphasize that this is not certification as a spiritual guide per se, since the ministry of spiritual direction is constituted by a call from God and is authenticated by its fruits.
